1.1.1.

DOSA Tec Solenoid diaphragm dosing pump HCO

Solenoid diaphragm dosing pump for the exact dosing of liquid media.

Product description:

- Capacity: 0 – 5 l/h
- Pressure range: 0 – 10 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 24 VAC, 24 VDC
- Manual pump head ventilation valve
- Suitable for wall mounting
- Manual adjustment of stroke frequency
- Available languages: DE, EN, FR

3

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process, industry, acids, bases, flocculants, ...).

Scope of supply:

- **DOSA Tec HCO** Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve), connection cable end open

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item number:
HCO PVDF/Viton® (Dosing pump HCO with PVDF pump head and Viton® seals.)	1.0	10	160	4 x 6	40230003
	2.0				
	3.0				
	5.0				
HCO PVDF/EPDM (Dosing pump HCO with PVDF pump head and EPDM seals.)	1.0	10	160	4 x 6	40230053
	2.0				
	3.0				
	5.0

1.1.2.

DOSA Tec Solenoid diaphragm dosing pump HCL

Solenoid diaphragm dosing pump for the exact dosing of liquid media.

Product description:

- Capacity: 0 – 5 l/h
- Pressure range: 0 – 10 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE (coated)
- Power supply: 100–230 VAC
- Alternative power supply: 24 VAC, 24 VDC
- Manual pump head ventilation valve
- Input for level control
- Suitable for wall mounting
- Manual adjustment of stroke frequency (0–20 %, 0–100 %)
- Available languages: DE, EN, FR

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process, industry, acids, bases, flocculants, precipitants, ...).

Scope of supply:

- DOSA Tec HCL Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, level switch), connection cable end open

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item number:
HCL PVDF/Viton® (Dosing pump HCL with PVDF pump head and Viton® seals.)	1.0	10	160	4 x 6	40230103
	2.0				
	3.0				
	5.0				
HCL PVDF/EPDM (Dosing pump HCL with PVDF pump head and EPDM seals.)	1.0	10	160	4 x 6	40230153
	2.0				
	3.0				
	5.0

1.1.3.

DOSA Tec Solenoid diaphragm dosing pump HIS

Solenoid diaphragm dosing pump for the exact dosing of liquid media.

Product description:

- Capacity: 0–5 l/h,
- Pressure range: 0–10 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Alternative power supply: 24 VAC, 24 VDC
- Manual pump head ventilation valve
- Input for level control
- Suitable for wall mounting
- Manual adjustment of stroke frequency
- Pulse input
- Mode for pulse multiplication
- Mode for pulse division (4:1)
- Available languages: DE, EN, FR

3

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, ...).

Scope of supply:

- **DOSA Tec HIS** Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, level switch), connection cable end open

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connec- tion: mm	Item number:
HIS PVDF/Viton® (Dosing pump HIS with PVDF pump head and Viton® seals.)	1.0	10	160	4 x 6	40230203
	2.0				
	3.0				
	5.0				
HIS PVDF/EPDM (Dosing pump HIS with PVDF pump head and EPDM seals.)	1.0	10	160	4 x 6	40230253
	2.0				
	3.0				
	5.0

1.1.4.

DOSA Tec Solenoid diaphragm dosing pump HTS

Solenoid diaphragm dosing pump for the exact dosing of liquid media.

3

Product description:

- Capacity: 0–5 l/h
- Pressure range: 0–10 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE (coated)
- Power supply: 100–230 VAC
- Alternative power supply: 24 V AC, 24 VDC
- Manual pump head ventilation
- Suitable for wall mounting
- Manual adjustment of stroke frequency
- Inputs for/to:
 - level control
 - external dosing start
 - pulses
 - 4–20 mA signal
- Modes:
 - pulse multiplication
 - pulse division
 - conversion of analog input signals
 - dosing controlled by an integrated timer
- Available languages: DE, EN, FR

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process, industry, acids, bases, flocculants, ...).

Scope of supply:

- **DOSA Tec HTS** Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, level switch), connection cable end open

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item number:
HTS PVDF/Viton® (Dosing pump HTS with PVDF pump head and Viton® seals.)	1.0	10	160	4 x 6	40230403
	2.0				
	3.0				
	5.0				
HTS PVDF/EPDM (Dosing pump HTS with PVDF pump head and EPDM seals.)	1.0	10	160	4 x 6	40230453
	2.0				
	3.0				
	5.0

1.1.5.

DOSA Tec Solenoid diaphragm dosing pump HPO

Solenoid diaphragm dosing pump for the exact dosing of liquid media.

Product description:

- Capacity: 0–5 l/h
- Pressure range: 0–10 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Alternative power supply: 24 VAC, 24 VDC
- Manual pump head ventilation valve
- Suitable for wall mounting
- Manual adjustment of stroke frequency
- Inputs:
 - Level control
 - external dosing start
 - direct pH control
 - direct redox (ORP) control
 - temperature sensor Pt100
- Mode for conversion of analog input signals
- Available languages: DE, EN, FR

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, ...).

Scope of supply:

- **DOSA Tec HPO** Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, level switch), connection cable end open

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item number:
HPO PVDF/Viton® (Dosing pump HPO with PVDF pump head and Viton® seals.)	1.0	10	160	4 x 6	40230503
	2.0				
	3.0				
	5.0				
HPO PVDF/EPDM (Dosing pump HPO with PVDF pump head and EPDM seals.)	1.0	10	160	4 x 6	40230553
	2.0				
	3.0				
	5.0

21.11.2017

1.1.6.

DOSA Tec Solenoid diaphragm dosing pump LCO

Solenoid diaphragm dosing pump for exact dosing of liquid media.

Product description:

- Capacity: 0–110 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Manual pump head ventilation valve
- Suitable for wall mounting
- Manual adjustment of stroke frequency
(0...20 %, 0...100 %)

3

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, preprecipitants, ...).

Scope of supply:

- DOSA Tec LCO Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, hose screw connection)

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Watt:	Hose connection: mm	Item number:	
LCO PVDF/Viton® (Dosing pump LCO with PVDF pump head and Viton® seals.)	2.50	20.0	120	14	4 x 6	41230000	
	3.00	18.0					
	4.20	14.0					
	3.00	12.0	160	20		41230001	
	4.00	10.0					
	5.00	8.0					
	8.00	2.0	300	40		41230004	
	7.00	16.0					
	10.00	10.0					
	14.00	6.0					
	16.00	2.0					
	20.00	5.0					
	32.00	4.0					
	62.00	2.0					
	110.00	0,1				41230007	

Viton® is the registered trademark for DuPont Dow Elastomer.

Subject to technical modifications and printing errors. Images may vary slightly from actual product.
10.03.2021

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Watt:	Hose connection: mm	Item number:
LCO PVDF/EPDM (Dosing pump LCO with PVDF pump head and EPDM seals.)	2.50	20.0	120	14	4 x 6	41230050
	3.00	18.0				41230051
	4.20	14.0				41230054
	3.00	12.0	160	20	8 x 12	41230057
	4.00	10.0				
	5.00	8.0

	14.00	6.0				
	16.00	2.0				
	20.00	5.0				
	32.00	4.0				
	62.00	2.0				
	110.00	0.1				

3

Options:

Type:	Item number:
Self-venting pump head for:	
L 2,50 l/h - 20,00 bar	91230005
L 3,00 l/h - 12,00 bar	
L 10,00 l/h - 10,00 bar	
Reduction of the liter output by approx. 20%	

1.1.7.

DOSA Tec Solenoid diaphragm dosing pump LCL

Solenoid diaphragm dosing pump for exact dosing of liquid media.

Product description:

- Capacity: 0–110 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Alternative power supply*:
 - 24 VAC, 48 VAC, 240 VDC, 480 VDC
 - (*only für dosing capacity 3,00; 5,00; 8,0 l/h)
- Manual pump head ventilation valve
- Suitable for wall mounting
- Manual adjustment of stroke frequency
0–20 %, 0–100 %
- Inputs:
 - level alarm

3

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, ...).

Scope of supply:

- DOSA Tec LCL Solenoid diaphragm dosing pump, accessory set (foot valve, hose, hose screw connection, injection valve, level switch)

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Watt:	Hose connection: mm	Item number:	
LCL PVDF/Viton® (Dosing pump LCL with PVDF pump head and Viton® seals.)	2.50	20.0	120	14	4 x 6	41230100	
	3.00	18.0					
	4.20	14.0

1.1.8.

DOSA Tec Solenoid diaphragm dosing pump LAS

Solenoid diaphragm dosing pump for exact dosing of liquid media.

3

Product description:

- Capacity: 0–110 l/h,
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100 ... 230 VAC
- Alternative power supply*:
 - 24 VAC, 48 VAC, 24 VDC, 480 VDC
 - (*only for dosing capacity 3,00; 5,00; 8,0 l/h)
- Manual pump head ventilation valve
- Suitable for wall mounting
- Manual adjustment of stroke frequency
- Inputs:
 - Level control
 - pulses
 - 4 ... mA signal
- Output:
 - Alarm-Relay output
- Modes:
 - pulse multiplication
 - pulse division (1:1, 4:1; 10:1)
 - conversion of analog input signals

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, predepositants, ...).

Scope of supply:

- DOSA Tec LAS Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, hose screw connection, level switch)

Reduction of the liter output by approx. 20%	

1.1.9.

DOSA Tec Solenoid diaphragm dosing pump LMS

Solenoid diaphragm dosing pump for exact dosing of liquid media.

3

Product description:

- Capacity: 0–110 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Suitable for wall mounting
- Inputs:
 - Level control
 - external dosing start
 - pulses
 - 4 ... mA signal
- Output:
 - Alarm relay output
- Modes:
 - pulse multiplication, pulse division
 - conversion of analog input signals
 - dosing of pre-set quantities
 - timer
- Available languages: DE, EN, FR

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, ...).

Scope of supply:

- DOSA Tec LMS Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve, hose screw connection, level switch)

DOSA Tec Solenoid diaphragm dosing pump LEN

Solenoid diaphragm dosing pump for exact dosing of liquid media.

3

Product description:

- Capacity: 0–110 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Manual pump head ventilation valve
- Suitable for wall mounting
- Inputs:
 - Level control
 - external dosing start
 - flow sensor
- Output:
 - Alarm relay output
- Mode for dosing by integrated timer
- Available languages: DE, EN, FR

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, preprecipitants, ...).

DOSA Tec Solenoid diaphragm dosing pump LPO

Solenoid diaphragm dosing pump for exact dosing of liquid media.

Product description:

- Capacity: 0–110 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 100–230 VAC
- Manual pump head ventilation valve
- Suitable for wall mounting
- Inputs:
 - Level control
 - external dosing start
 - direct pH regulation
 - direct redox (ORP) regulation
 - temperature sensor
- Output:
 - 4–20 mA signal
 - Alarm relay output
- Available languages: DE, EN, FR

3

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, preipitants, ...).

DOSA Tec Spare parts for solenoid diaphragm pumps L and H

Pump head and membrane for solenoid diaphragm pumps of the L and H series.

Product description:

- Pump heads made of PVDF
- Seals: Viton or EPDM
- Capacity: 0 ... 110 l/h
- Pressure range: 0.1 ... 20 bar
- Seal material: Viton®, EPDM
- Diaphragm material: PTFE

3

Areas of application:

- Spare parts.

Scope of supply:

- DOSA Tec Pump head of your choice/as ordered (incl. seal)
- DOSA Tec Membrane of your choice/as ordered

Ordering data:

1.1.13.

DOSA Tec Solenoid diaphragm dosing pump PCO

Solenoid diaphragm dosing pump for exact dosing of liquid media.

3

Product description:

- Capacity: 0–16.4 l/h
- Pressure range: 0–16 bar
- Pump head material: PP, PVC, PVDF
- Seals material: EPDM, Viton®, PTFE
- Diaphragm material: PTFE - coated
- Power supply: 230 VAC
- Alternative power supply: 115 VAC (US-plug)
- Manual pump-head ventilation
- Suitable for base mounting
- Manual adjustment of stroke frequency
- Manual adjustment of stroke length
- Inputs:
 - Level indicator
 - external dosing enabling (optional with retrofit kit)

Areas of application:

- Dosing of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, preprecipitants, ...).

Scope of supply:

- DOSA Tec PCO Solenoid diaphragm dosing pump, accessory set (foot valve, hose, injection valve)

1.1.14.

DOSA Tec Solenoid-driven diaphragm dosing pump AMS CO

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

3

Product description:

- Capacity: 0–60 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for mounting on a base
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25–100 %
- Pulse scaling 1 : 10
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS CO**, accessory set
(foot valve, hose, hose thread, injection valve)

Ordering data:

Model:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item No:
AMS CO PVDF/Viton® (AMS CO dosing pump with PVDF pump head and Viton® seals.)	5	25	120	Suction side: PVC hose from 5/25 l/h up 4 x 6 from 20/7 l/h up 6 x 8 from 40/3 l/h up 8 x 12	3813500
	10	15			3813501
	20	7			3813502
	40	3		Discharge side: PVDF hose from 5/25 l/h up 4 x 6 from 20/7 l/h up 6 x 8 from 40/3 l/h up 8 x 12	3813503

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Plus

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

Product description:

- Capacity: 0–60 l/h,
- pressure range: 0–25 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for mounting on a base
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - Pulses
 - 4–20 mA signal
- Alarm output (option)
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

DOSA Tec Solenoid-driven diaphragm dosing pump AMSA CO

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–38.5 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - optional: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25 – 100 %
- Pulse scaling 1 : 10
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMSA CO**, accessory set
(foot valve, hose, hose thread, injection valve)

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Digital MF

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

3

Product description:

- Capacity: 0–60 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - optional: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - Flow rate monitoring
 - 4–20 mA signal
 - 0–10 V signal
- Alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Dosing of pre-set volumes
 - Conversion of analogue input signals
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS Digital MF**, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Digital RH

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

3

Product description:

- Capacity: 0–60 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - optional: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct redox control
- Alarm output (option)
- Mode: proportional to the measured value, or On/Off
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS Digital RH**, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump AMSA Digital MF

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

3

Product description:

- Capacity: 0–38.5 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - optional: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - Flow rate monitoring
 - 4–20 mA signal
 - 0–10 V signal
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

DOSA Tec Solenoid-driven diaphragm dosing pump AMSA Digital RH

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

3

Product description:

- Capacity: 0–38.5 l/h
- Pressure range: 0–25 bar
- Pump head material: PVDF
 - optional: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct redox control
- Alarm output (option)
- Conversion of analogue input signals
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMSA Digital RH**, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

Ordering data:

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Polymer CO

Solenoid-driven diaphragm dosing pump for high viscosity media up to 50,000 cPs for the capacity range between 0–40 l/h.

3

Product description:

- Capacity: 0–40 l/h
- Pressure range: 0–8 bar
- Pump head material: PMMA (acrylic)
- Seals material: Viton®
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Factor 1 : 10
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS Polymer CO**, accessory set (foot valve, hose, hose thread, injection valve)

Ordering data:

Model:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item No:
AMS Polymer CO PMMA/Viton® (AMS Polymer CO dosing pump with PMMA pump head and Viton® seals.)	2	8	120	Suction side: PVC braided hose 20 x 27	3813930

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Polymer Plus

Solenoid-driven diaphragm dosing pump for high viscosity media up to 50,000 cPs.

3

Product description:

- Capacity: 0–40 l/h
- Pressure range: 0–8 bar
- Pump head material: PMMA (acrylic)
- Seals material: Viton®
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - Pulses
 - 4–20 mA signal
- Alarm output (option)
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pumps **AMS Polymer Plus**, accessory set (foot valve, hose, hose thread, injection valve)

1.1.28.

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Polymer MF

Solenoid-driven diaphragm dosing pump for high viscosity media up to 50,000 cPs.

Product description:

- Capacity: 0–40 l/h, pressure range: 0–8 bar
- Pump head material: PMMA (acrylic)
- Seals material: Viton®
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC (24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - Flow rate monitoring
 - 4–20 mA signal
 - 0–10 V signal
- Alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS Digital Polymer MF**, accessory set (foot valve, hose, hose thread, injection valve)

Ordering data:

Model:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item No:
AMS Digital Polymer MF PMMA/Viton® (AMS Digital Polymer MF dosing pump with PMMA pump head and Viton® seals)	2	8	120	Suction side: PVC braided hose 20 x 27	3813960

1.1.29.

DOSA Tec Solenoid-driven diaphragm dosing pump AMS Digital Polymer PH

Solenoid-driven diaphragm dosing pump for high viscosity media up to 50,000 cPs.

Product description:

- Capacity: 0–40 l/h
- Pressure range: 0–8 bar
- Pump head material: PMMA (acrylic)
- Seals material: Viton®
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct pH control, pH 0–14
- Alarm output (option, available on request)
- Mode: proportional to the measured value, or On/Off
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **AMS Digital Polymer PH**, accessory set (foot valve, hose, hose thread, injection valve, level switch)

Ordering data:

DOSA Tec Solenoid-driven diaphragm dosing pump K CO

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

Product description:

- Capacity: 0–18 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 V DC, 24 VDC available on request)
- Manual pump head priming valve
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25–100 %
- Pulse scaling 1 : 10
- Manual stroke length adjustment
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- **DOSA Tec K CO** Solenoid-driven diaphragm dosing pump, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump K Plus

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

3

Product description:

- Capacity: 0–18 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for mounting on a base
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25–100 %
- Inputs for:
 - Level control
 - Pulses
 - 4–20 mA signal
- Output (optional) for alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump K Plus, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump KA CO

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

3

Product description:

- Capacity: 0–13 l/h
- Pressure range: 0–18 bar
- Pump head material: PVDF
option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke frequency adjustment 0–100 %
- Manual stroke length adjustment 0/25–100 %
- Pulse scaling 1 : 10
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump KA CO, accessory set
(foot valve, hose, hose thread, injection valve)

DOSA Tec Solenoid-driven diaphragm dosing pump KMS MF

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

Product description:

- Capacity: 0 – 18 l/h
- Pressure range: 0 – 18 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25 – 100 %
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - Hydraulic stroke control
 - 4–20 mA signal
 - 0–10 V signal
- Alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

DOSA Tec Solenoid-driven diaphragm dosing pump KMS PH

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

3

Product description:

- Capacity: 0–18 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 V AC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct pH control, pH 0–14
- Optional output for alarm output
- Modes:
 - Proportional to the measured value, or On/Off
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump KMS PH, accessory set (foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump KMS RH

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media. Version for high viscosity media between 100 and 8000 cPs available for the LPV version.

Product description:

- Capacity: 0–18 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic, stainless steel
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct redox control, 0–1000 mV
- Optional output for alarm output
- Modes:
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **KMS RH**, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

Acrylic pump head L	8913130
Acrylic pump head M	8913135
Acrylic pump head LPV L up to 8000 cPs	8913310
Acrylic pump head LPV M up to 8000 cPs	8913311
PVDF hose for K, KA, KMS and KMSA pump series 4 x 6	8713075
PVDF hose for K, KA, KMS and KMSA pump series 6 x 8	8713080
External level/alarm contact NO/NC	9013522
*No accessories included.	
**Hose connection for acrylic pump head up to 8000 cPs: Discharge side 16 x 22, PVC hose; Suction side 8 x 12 PE hose; Foot valve made of stainless steel not included.	
Surcharge for stainless steel dosing head (excl. accessories and hoses). Please specify the required thread (cylindrical, conical or NPT) in your order.

DOSA Tec Solenoid-driven diaphragm dosing pump KMSA MF

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–13 l/h,
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 V AC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - Hydraulic stroke control
 - 4–20 mA signal
 - 0–10 V signal
- Alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump KMSA MF, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump KMSA PH

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–13 l/h
- pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 V AC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct pH control, pH 0–14
- Alarm output (option)
- Modes:
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump KMSA PH, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump KMSA RH

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–13 l/h
- pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 V AC
- Alternative power supply: 115 VAC
(24 V AC, 12 VDC, 24 VDC available on request)
- Suitable for mounting on a base
- Manual stroke length adjustment 0/25–100 %
- Inputs:
 - Level control
 - External dosing start
 - Direct redox control, 0 to -1000 mV
- Output (optional) for alarm output
- Modes:
 - Proportional to the measured value, or On/Off
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump KMSA RH, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump VMS MF

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–16 l/h, pressure range: 0–20 bar
- Pump head material: PVDF; PP (optional)
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC (24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head priming valve
- Suitable for wall mounting
- Manual stroke frequency adjustment
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - 4–20 mA signal
 - 0–10 V signal
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump VMS MF, accessory set (foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump VMS PO

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–16 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
 - Manual pump head priming valve
 - Suitable for wall mounting
 - Manual stroke frequency adjustment
- Inputs:
 - Level control
 - Direct pH control, pH 0–14
 - Direct redox control, 0 to -1000 mV
- Mode: Proportional to the measured value, or On/Off
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump VMS PO, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump VMSA MF

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–13.5 l/h
- pressure range: 0–18 bar
- Pump head material: PVDF
 - option: PP
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for wall mounting
- Manual stroke frequency adjustment
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - 4–20 mA signal
 - 0–10 V signal
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

DOSA Tec Solenoid-driven diaphragm dosing pump T CO

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0 – 100 l/h
- Pressure range: 0 – 20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for wall mounting
- Manual stroke frequency adjustment 0 – 100 %
- Pulse scaling 1 : 10
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

DOSA Tec Solenoid-driven diaphragm dosing pump T CL

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0 – 100 l/h
- Pressure range: 0 – 20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for wall mounting
- Manual stroke frequency adjustment 0 – 100 %
- Pulse scaling 1 : 10
- Level control input
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec T CL Solenoid-driven diaphragm dosing pump, accessory set (foot valve, hose, hose thread, injection valve, level switch)

Ordering data:

Model:	Dosing capacity: l/h	Pressure range: bar	Max. stroke frequency: 1/min	Hose connection: mm	Item No:
T CL PVDF/Viton® (T CL dosing pump with PVDF pump head and Viton® seals.)	5	20	120	Discharge side: PVDF 5 20, 4 x 6 from 15 5 up, 6 x 8 from 30 3 up, 8 x 10 PVC braided hose at 100 0, 12 x 18	3813043

DOSA Tec Solenoid-driven diaphragm dosing pump TMS MF

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0 – 100 l/h,
- Pressure range: 0 – 20 bar
- Pump head material: Viton®
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for wall mounting
- Manual stroke frequency adjustment
- Inputs:
 - Level control
 - External dosing start
 - Pulses
 - 4–20 mA signal
 - 0–10 V signal
- Alarm output
- Modes:
 - Pulse multiplication
 - Pulse division
 - Conversion of analogue input signals
 - Dosing of pre-set volumes
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump TMS MF, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump TMS PH

Solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

3

Product description:

- Capacity: 0–100 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Manual pump head venting
- Suitable for wall mounting
- Manual stroke frequency adjustment
- Inputs:
 - Level control
 - External dosing start
 - Direct pH control, pH 0–14
- Output for alarm message (option)
- Conversion of analogue input signals
- Available languages: DE, EN, FR

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump **TMS PH**, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

DOSA Tec Solenoid-driven diaphragm dosing pump TMSA PH

Self-venting solenoid-driven diaphragm dosing pump for precise dosing of liquid media.

Product description:

- Capacity: 0–35 l/h
- Pressure range: 0–20 bar
- Pump head material: PVDF
 - option: PP, acrylic
- Seals material: Viton®, EPDM
- Diaphragm material: PTFE
- Power supply: 230 VAC
- Alternative power supply: 115 VAC
(24 VAC, 12 VDC, 24 VDC available on request)
- Suitable for wall mounting
- Manual stroke frequency adjustment
- Inputs:
 - Level control
 - External dosing start
 - Direct pH control, pH 0–14
- Alarm output (option)
- Conversion of analogue input signals
- Available languages: DE, EN, FR

3

Areas of application:

- Dosage of small and medium fluid volumes (water treatment, process industry, acids, bases, flocculants, precipitants, etc.)

Scope of supply:

- DOSA Tec Solenoid-driven diaphragm dosing pump TMSA PH, accessory set
(foot valve, hose, hose thread, injection valve, level switch)

3. Dosing technology

1.2. Peristaltic Pumps

1.2.1.

DOSA Tec Peristaltic pump DOSAFlex

Pump with directly coupled stepper motor, < 35 dB.

Product description:

- LCD display
- Operating modes:
 - mA Mode (proportional dosing by current signal 4–20 mA or 20–4 mA)
 - Manual mode, Ton/Toff (constant dosing)
 - ppm mode (dosing according to concentration calculations)
 - Batch mode (dosing according to container level)
 - 1 : N (increase in dosing rate) or N : 1 mode (decrease in dosing rate)
- Level detector
- Alarm output as relay
- Power supply: 110–240 V

3

Areas of application:

- Continuous, volume-controlled dosing, e.g. in swimming pools (flocculants, activated carbon, chemical additives).
- Processes with low outlet pressure, e.g. dosing in galvanic.
- Baths and settling tanks.

Scope of supply:

- DOSA Tec Peristaltic pump DOSAFlex, optional installation kit (see options)

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Suction lift meter	Hose connection: mm	Item number:
DOSAFlex 2	0.002–2.000	3	1	Union-nut 4 x 6 mm	3486000

1.2.2.

DOSA Tec Peristaltic pump DOSAFlex pH-Rx

Capacity range up to 3 l/h, including pH or Redox-Regulation.

3

Product description:

- LCD thermoplastic hose
- Self-priming
- integrated electronic controller for measuring and regulation of pH and Redox value (accessories will be needed: sensors, flow cell, filter)
- pH-range: 4–9
- Rx (ORP) range: -300 to +900 mV
- Set Point adjustment
- Over alarm, indicates an overdose situation
- Level switch input
- Power supply: 230 V

Areas of application:

- Domestic, small swimming pools and wellness centres.

Scope of supply:

- DOSA Tec Peristaltic pump DOSAFlex, optional installation kit (see options)

Ordering data:

Type:	Dosing capacity: l/h	Pressure range: bar	Suction lift meter	Hose connection: mm	Item number:

3. Dosing technology

1.3. Motorised diaphragm dosing pumps

1.3.1.

DOSA Tec PRISMA stepper motor-driven diaphragm dosing pump

Stepper motor-driven diaphragm dosing pump for ultra-precise dosing of liquid media. The turndown ratio of 1:4800 ensures precise and uniform dosing. The slow-motion mode enables dosing of higher viscosity media up to 10,000 CPS.

3

Product description:

- Capacity: 0 - 80 l/h
- Pressure range: 0 - 25 bar
- Slow-motion mode: 100 % - 1 %
- Pump head material: PVDF, PP, SS (AISI 316), acrylic (PMMA)
- Seal material: Viton®, EPDM, nitrile, PTFE
- Diaphragm material: PTFE
- Power supply: 90 - 240 V AC, 50/60 Hz, 9 - 36 V DC (optional)
- Manual pump head priming valve
- Suitable for mounting on a base
- Multifunction input for/to:
 - Level signal (with pre-alarm)
 - Pulse input (water meter), ppm mode, %, mlq, mA, V, pulse
 - mA (0/4 - 20 mA) for external control of the stroke frequency (power)
 - Power input (0 - 10 V) for external control of the stroke frequency (power)
 - Start contact for BATCH mode
 - External dosing start
- Outputs:
 - Alarm (relay free contact, N.O./N.C, max. 250 V AC, 2 A)
 - RS485 or Modbus (optional), for integration into a process control system (slave), optional
 - mA output, optional
- Languages available: DE, EN, FR, IT, ES

Areas of application:

- Dosage of small and medium fluid volumes: Water treatment, process industry, acids, alkalis, flocculants, precipitants, dosing of higher viscosity media up to 10,000 CPS), etc.

Scope of supply:

- DOSA Tec Prisma stepper motor-driven diaphragm dosing pump, set of accessories (foot valve with level switch and 2.5 m power cable with BNC plug, injection valve, pressure and suction hose*, hose fitting, vent hose*, 3-pole signal cable* (alarm); (* 2 m each), 5-pole signal cable for universal signal input „INPUT“, standby input and external start (1.5 m), other small parts).

3. Dosing technology

1.4. Motorised diaphragm dosing pumps

1.4.1.

DOSA Tec Motorised diaphragm dosing pump FM-50

High dosing accuracy and robust technology with a vertically mounted electric motor.

Product description:

- Capacity: 4.5–47 l/h
- Pressure range: 5–10 bar
- Max. dosing fluid temperature:
 - PP, PVC: 40 °C
 - Stainless steel AISI 316: 60 °C
- Seals: Viton®, EPDM
- Stroke frequency 0–116 per min
- Dosing head, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valves, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valve balls: Pyrex®, stainless steel AISI 316
- Membrane: PTFE

3

Areas of application:

- Constant dosing without a controller.
- Water treatment, process technology, wastewater treatment.

Scope of supply:

- DOSA Tec FM-50 Motorised diaphragm dosing pump, with selected options, see codes -11, -12, -13, -16, -23, (the gear is already filled with grease)

Technical data:

Type:			
Stroke adjustment	Infinitely variable from 0–100 %, manual		
Standard reduction gear	+		
Motor rating	0.18 kW		
Power supply	three phase 230/400 VAC, 50/60* Hz (single phase 230/240 VAC, 50/60 Hz* also available as an option)		
Type: Coded with end number e.g. FM-50-11	Pump head:	Valve balls:	Valve seats:
11	Stainless steel AISI 316:	Stainless steel AISI 316	Stainless steel AISI 316
12	PP	Pyrex®	PP
13	PVC	Pyrex®	PVC

Viton® is the registered trademark for DuPont Dow Elastomer.

Options:

Electrical connection:	Item number:
Single-phase 230 VAC, 50 Hz, 0.18 kW	9012450
Single-phase 240 VAC, 50 Hz, 0.18 kW	9012453
Seals:	
EPDM for 1" valves (2 pcs.)	9012802
Viton® for 1/2" valves (2 pcs.)	9012801

Subject to technical modifications and printing errors. Images may vary slightly from actual product

1.4.2.

DOSA Tec Motorised diaphragm dosing pump D-50

High dosing accuracy and robust technology with a vertically mounted electric motor.

Product description:

- Capacity: 4.0–49 l/h
- Pressure range: 10–14 bar
- Max. dosing fluid temperature:
 - PP, PVC: 40 °C
 - Stainless steel AISI 316: 60 °C
- Seals: Viton®, EPDM
- Stroke frequency: 0–116 per min
- Dosing head, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valves, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valve balls: Pyrex®, stainless steel AISI 316
- Membrane: PTFE
- Optional frequency converter/control

3

Areas of application:

- Constant dosing without a controller.
- Water treatment, process technology, wastewater treatment.

Scope of supply:

- DOSA Tec D-50 Motorised diaphragm dosing pump, with selected options, see codes **-11, -12, -13, -16, -23**, ((optional: gear oil, not included in the scope of delivery)

Technical data:

Type:			
Stroke adjustment	Infinitely variable from 0 – 100 %, manual		
Standard reduction gear	+		
Motor rating	0.18 kW		
Power supply	three phase 230/400 VAC, 50/60* Hz (single phase 230/240 VAC, 50/60 Hz* also available as an option)		
Type: Coded with end number e.g: D-50-11	Pump head:	Valve balls:	Valve seats:
11	Stainless steel AISI 316	Stainless steel AISI 316	Stainless steel AISI 316
12	PP	Pyrex®	PP
13	PVC	Pyrex®	PVC
16	PVC	SS 316	PVC
23	PVDF	Pyrex®	PVDF

DOSA Tec Motorised diaphragm dosing pump D-101

Pump covering a capacity of 105–415 l/h.

3

Product description:

- Capacity: 105–418 l/h
- Pressure range: 3–8 bar
- Max. dosing fluid temperature:
 - PP, PVC: 40 °C
 - Stainless steel AISI 316: 60 °C
- Seals: Viton®, EPDM
- Stroke frequency: 0–120 per min
- Dosing head, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valves, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valve balls: Pyrex®, stainless steel AISI 316
- Membrane: PTFE
- Optional frequency converter/control

Areas of application:

- Constant dosing without a controller.
- Water treatment, process technology, wastewater treatment.

Scope of supply:

- **DOSA Tec D-101** Motorised diaphragm dosing pump, with selected options, see codes **-11, -12, -13, -16, -23**, (optional: gear oil, not included in the scope of delivery)

Technical data:

Type:			
Stroke adjustment	Infinitely variable from 0 – 100 %, manual		
Standard reduction gear	+		
Motor rating	0.25 kW, 0.37 kW		
Power supply	three phase 230/400 VAC, 50/60* Hz (single phase 230/240 VAC, 50/60 Hz* also available as an option)

DOSA Tec Motorised diaphragm dosing pump D-121

Pump covering a capacity of 332–570 l/h.

3

Product description:

- Capacity: 332–570 l/h
- Pressure range: 3 bar
- Max. dosing fluid temperature:
 - PP, PVC: 40 °C
 - Stainless steel AISI 316: 60 °C
- Seals: Viton®
- Stroke frequency 0–120 per min
- Dosing head, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valves, electively: PP, PVC, PVDF, stainless steel AISI 316
- Valve balls: Pyrex®, stainless steel AISI 316
- Membrane: PTFE
- Optional frequency converter

Areas of application:

- Constant dosing without a controller.
- Water treatment, process technology, wastewater treatment.

Scope of supply:

- **DOSA Tec D-121** Motorised diaphragm dosing pump, with selected options, see codes **-11, -12, -13, -16, -23**, (optional: gear oil, not included in the scope of delivery)

Technical data:

Type:			
Stroke adjustment	Infinitely variable from 0–100 %, manual		
Standard reduction gear	+		
Motor rating	0.25 kW, 0.37 kW		
Power supply	three phase 230/400 VAC, 50/60* Hz (single phase 230/240 VAC, 50/60 Hz* also available as an option)		
Type: Coded with end number e.g: D-121-11	Pump head:	Valve balls:	Valve seats:
11	Stainless steel AISI 316	Stainless steel AISI 316	Stainless steel AISI 316
12	PP	Pyrex®	PP
13	PVC	Pyrex®	PVC
16	PVC	SS 316	PVC

3. Dosing technology

1.5. Proportional doser unit

1.5.1.

DOSA Tec Proportional doser D07

Proportional dosing with external adjustment.

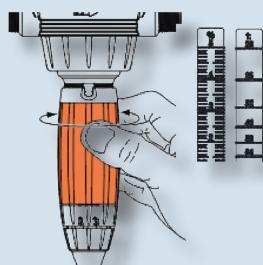

3

Product description:

- Dosing range: 0.15–5.5 %
- Pressure range: 0.3–6 bar, depending on the model
- Water flow rate: 5–700 l/h
- Dosing feed rate: 0.0075–38.5 l/h
- Dosing: proportional, e.g. a setting of 1 % (corresponds to a dosage of 1 : 100)
- Average dosage tolerance: $\pm 5\%$
- Reproducibility: $\pm 3\%$ (API675)
- Pressure loss: 0.3 – 1.4 bar
- Maximum temperature of drive water: 40 °C
- Minimum temperature of drive water: 5 °C
- Integrated mixing chamber
- With built-in bypass switch
- Drive:
 - hydraulic differential piston motor
 - self-priming
- Seals:
 - AF for alkaline solutions (pH 7–14),
 - VF acid (pH 1 – 7)
- Maximum intake height: 4 m

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, crop protection, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes.

Easy adjustment of the dosing rate:

- The tips of the notch on the adjustment ring points to the corresponding value. The amount of concentrate fed is proportional to the volume of water flowing through the doser: e.g.: setting 1% = 1 : 100 = 1 part concentrate + 100 parts water.

Operating principle:

- When connected to the water mains, the doser uses the water pressure as its driving force, which causes it to suck concentrate in and dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Scope of supply:

- DOSA Tec D07 Proportional doser, inclusive suction hose with filter, wall mount

Additional technical data:

Equipment:	Realisation:
Feed	Internal feed in discharge mixing chamber
Stroke	0.225 l (1 cycle = 1 click)
Dosing piston	Single-acting 10%, double acting from 10% upwards
Intake valve	Spring-loaded cone valve with seal
Ventilation	Built-in ventilation
Max. viscosity of concentrate	200 ... 800 cPs at 20 °C, from 400 cPs and > 2 % V-kit recommended for dosage
Intake	Intake filter with ballast
Connections	¾ M : BSP – NPT – Ø 20 x 27 mm
Integrated anti-siphon system	No

3

Ordering data:

Type:	Dosing rate: %	Ratio:	Waterflow rate: l/h	Pressure: bar	Hose connection: mm	Housing:	Item number:
D07RE125 AF (seals for alkaline media)	0.15–0.25	1 : 666 to	5–700	0.3–6	6 x 9	PP (Polypropylene)	4056446
D07RE125 VF (seals for acidic media)		1 : 80					4056445
D07RE5 AF (seals for alkaline media)		1 : 128 to					4056441
D07RE5 VF (seals for acidic media)		1 : 1,18					4056443
D07RE125 AF (seals for alkaline media)		1 : 666 to				PVDF	4056448
D07RE125 VF (seals for acidic media)		1 : 80					4056447
D07RE5 AF (seals for alkaline media)		1 : 128 to					4056442
D07RE5 VF (seals for acidic media)		1 : 1,18					4056440

Options:

Type:	Item number:
Product intake hose as viscous kit version.	
Type:	Hose connection:
D07RE125 ...	12 x 16 mm
D07RE5 ...	

Accessories:

Type:	Item number:
½" pressure reducer male thread with pressure gauge	9156050
¾" water filter with Plexiglass container - Washable 80 micron filter cartridge	9156060
½" backflow preventer BA Micro DVGW tested (max.1000l/h)	9156070
½" backflow preventer BA Compakt	9156080
½" stainless steel water-hammer-arrester	9156090

Recommendations:

- To maximise the service life of the doser, we recommend the following:
 - Install a filter (60 micron [300 mesh]) upstream of the doser if the water quality requires one
 - Change the dosing seals at least once a year
 - Rinse with clear water as often as possible, but at least when decommissioning
 - Adjust the doser with the pressure shut off
 - Install the necessary protective devices (flow limiters/pressure limiters and water hammer arresters etc.) in the pipeline system for protection against excess flow, excess pressure and pressure spikes.
 - Install dosers in a total by-pass system

Subject to technical modifications and printing errors. Images may vary slightly from actual product.

1.5.2.

DOSA Tec Proportional doser D9

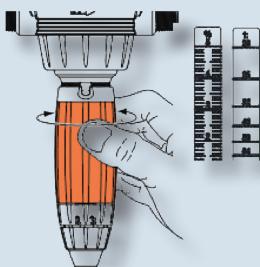

Proportional dosing with external adjustment

Product description:

- Dosing range: 0.2–5 %
- Pressure range: 0.3–8 bar, depending on the model
- Water flow rate: 500–9000 l/h
- Dosing feed rate: 1–450 l/h
- Dosing: proportional, e.g. a stetting of 1 % (corresponds to a dosage of 1 : 100)
- Average dosage tolerance: ± 10 %
- Reproducibility: ± 3 % (API675)
- Pressure loss: 0.2–2.3 bar
- Maximum temperature of drive water: 40 °C
- Minimum temperature of drive water: 5 °C
- Integrated mixing chamber
- Drive:
 - hydraulic differential piston motor
 - self-priming
- Seals:
 - AF for alkaline solutions (pH 7–14)
 - VF acid (pH 1–7)
- Maximum intake height: 4 m

3

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, crop protection, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes

Easy adjustment of the dosing rate:

- The tips of the notch on the adjustment ring points to the corresponding value. The amount of concentrate fed is proportional to the volume of water flowing through the doser: e.g.: setting 1 % = 1 : 100 = 1 part concentrate + 100 parts water.

Operating principle:

- When connected to the water mains, the doser uses the water pressure as its driving force, which causes it to suck concentrate in and dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Scope of supply:

- DOSA Tec D9 Proportional doser, inclusive suction hose with filter, wall mount

Additional technical data:

Equipment:	Realisation:
Feed	Internal feed in discharge mixing chamber
Stroke	1,7 l (1 Zyklus = 2 Klacklade)
Intake valve	Spring-loaded cone valve with seal
Ventilation	Built-in ventilation
Max. viscosity of concentrate	600 – 3000 cPs at 20 °C
Intake	Intake filter with ballast
Connections	1 ½" M: NPT - BSP Ø 40 x 49 mm
Integrated anti-siphon system	No

3

Ordering data:

Type:	Dosing rate: %	Ratio:	Waterflow rate: l/h	Pressure: bar	Hose connection: mm	Housing:	Item number:

Product intake hose as viscous kit version	9156040
D9RE2 ...	
An optional by-pass switch is available, which allows the intake system to be switched on/off	9156045

Recommendations:

- To maximise the service life of the doser, we recommend the following:
 - Install a filter (60 micron [300 mesh]) upstream of the doser if the water quality requires one
 - Change the dosing seals at least once a year
 - Rinse with clear water as often as possible, but at least when decommissioning
 - Adjust the doser with the pressure shut off
 - Install the necessary protective devices (flow limiters/pressure limiters and water hammer arresters etc.) in the pipeline system for protection against
 - excess flow, excess pressure and pressure spikes.
 - Install dosers in a total by-pass system

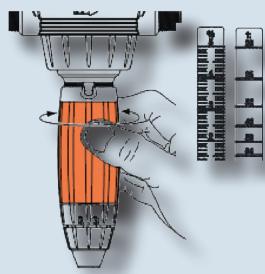

1.5.3.

DOSA Tec Proportional doser D25

Proportional dosing with external adjustment.

Product description:

- Dosing range: 0.1–10 %
- Pressure range: 0.3–6 bar, depending on the model
- Water flow rate: 10–2500 l/h
- Dosing feed rate: 0.007–250 l/h
- Dosing: proportional, e.g. a setting of 1 % (corresponds to a dosage of 1 : 100)
- Average dosage tolerance: $\pm 5\%$
- Reproducibility: $\pm 3\%$ (API675)
- Pressure loss: 0.3–1.9 bar
- Maximum temperature of drive water: 40 °C
- Minimum temperature of drive water: 5 °C
- Integrated mixing chamber
- Drive:
 - hydraulic differential piston motor
 - self-priming
- Seals:
 - AF (for alkaline solutions, pH 7–14)
 - VF (acid, pH 1–7)
- Maximum intake height: 4 m

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, crop protection, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes.

Easy adjustment of the dosing rate:

- The tips of the notch on the adjustment ring points to the corresponding value. The amount of concentrate fed is proportional to the volume of water flowing through the doser: e.g.: setting 1 % = 1 : 100 = 1 part concentrate + 100 parts water.

Operating principle:

- When connected to the water mains, the doser uses the water pressure as its driving force, which causes it to suck concentrate in and dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Scope of supply:

- DOSA Tec D25 Proportional doser, inclusive suction hose with filter, wall mount

Additional technical data:

Equipment:	Realisation:
Feed	Internal feed in discharge mixing chamber
Stroke	0.45 l (1 cycle = 2 clicks)
Dosing piston	Single-acting 10%, double acting from 10% upwards
Intake valve	Spring-loaded cone valve with seal
Ventilation:	Built-in ventilation
Max. viscosity of concentrate	200–800 cPs at 20 °C, from 400 cPs and > 2 % V-kit recommended for dosage
Intake	Intake filter with ballast
Connections:	¾ M : BSP – NPT – Ø 20 x 27 mm
Integrated anti-siphon system	No

3

Options:

Type:		Item number:
Product intake hose V as viscous kit version.		
Type:	Hose connection:	
D25RE2 ...	12 x 16 mm	9156040
D25RE5 ...		
D25RE10 ...	20 x 27 mm	
An optional by-pass (BP) switch is available for series D25 and D3, which allows the intake system to be switched on/off.		9156045

Accessories:

Type:	Item number:
½" pressure reducer male thread with pressure gauge	9156050
¾" water filter with Plexiglass container - Washable 80 micron filter cartridge	9156060
½" backflow preventer BA Micro DVGW tested (max.1000l/h)	9156070
½" backflow preventer BA Compakt	9156080
½" stainless steel water-hammer-arrester	9156090

3

Recommendations:

- To maximise the service life of the doser, we recommend the following:
 - Install a filter (60 micron [300 mesh]) upstream of the doser if the water quality requires one
 - Change the dosing seals at least once a year
 - Rinse with clear water as often as possible, but at least when decommissioning
 - Adjust the doser with the pressure shut off
 - Install the necessary protective devices (flow limiters/pressure limiters and water hammer arresters etc.) in the pipeline system for protection against excess flow, excess pressure and pressure spikes.
 - Install dosers in a total by-pass system

1.5.4.

DOSA Tec Proportional doser D3

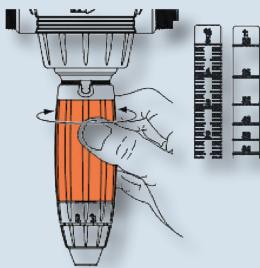

Proportional dosing with external adjustment.

3

Product description:

- Dosing range: 0.03–25 %
- Pressure range: 0.3–6 bar, depending on the model
- Water flow rate: 10–3000 l/h
- Dosing feed rate: 0.003–750 l/h
- Dosing: proportional, e.g. a setting of 1 % (corresponds to a dosage of 1 : 100)
- Average dosage tolerance: ±10 %
- Reproducibility: ±3 % (API675)
- Pressure loss: 0.2–2.3 bar
- Maximum temperature of drive water: 40 °C
- Minimum temperature of drive water: 5 °C
- Integrated mixing chamber
- Drive:
 - hydraulic differential piston motor
 - self-priming
- Seals:
 - AF for alkaline solutions (pH 7–14),
 - VF acid (pH 1–7)
- Maximum intake height: 4 m

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, crop protection, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes.

Easy adjustment of the dosing rate:

- The tips of the notch on the adjustment ring points to the corresponding value. The amount of concentrate fed is proportional to the volume of water flowing through the doser: e.g.: setting 1 % = 1 : 100 = 1 part concentrate + 100 parts water.

Operating principle:

- When connected to the water mains, the doser uses the water pressure as its driving force, which causes it to suck concentrate in and dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Scope of supply:

- DOSA Tec D3 Proportional doser, inclusive suction hose with filter, wall mount

Additional technical data:

Equipment:	Realisation:
Feed	Internal feed in discharge mixing chamber
Stroke	0.53 l (1 cycle = 2 clicks)
Dosing piston	Single-acting 10%, double acting from 10% upwards
Intake valve	Spring-loaded cone valve with seal
Ventilation	Built-in ventilation
Max. viscosity of concentrate	200–800 cPs at 20 °C, from 400 cPs and > 2 % V-kit recommended for dosage
Intake	Intake filter with ballast
Connections	¾ M : BSP – NPT – Ø 20 x 27 mm
Integrated anti-siphon system	No

3. Dosing technology

1.6. Metering stations

1.6.1.

DOSA Tec Dosing stations

Pre-assembled complete systems ready for connection.

Product description:

- DOSATRONIC® dosing stations are pre-assembled complete systems ready for connection
- The systems can be customised to meet your requirements, either as a one-off unit, a short run or serial production run
- High quality dosing stations for almost any dosing task
- The dosing pump with the appropriate O-rings (Viton® or EPDM), and the hose connections are selected according to the dosing medium (please tell us the exact dosing medium you will use the station for).
- Tanks: 60, 100, 200, 250, 500, 1000 l (special sizes possible on request)

Areas of application:

- The complete systems cover most standard dosing requirements.
- With special configurations, individually tailored to meet your requirements, we can also cater for complex and demanding tasks.

Scope of supply:

- Configuration according to your requirements

1.6.2.

DOSA^{Des} Mobile-R Mobile disinfection and dosing system

Mobile, compact high-performance disinfection and dosing system for volumetric and mechanical proportional dosing. *No power connection required! Any standard water supply can be used.* Ideal for surface disinfection, surface cleaning, fertilisation, washing systems, etc.

Product description:

- Proportional dosers D3RE2 VF PVDF or D3RE5 VF PVDF
- Dosing range: 0.2–2 % or 0.5–5 %
- Water flow rate: 10–3,000 l/h
- Pressure range: 0.3–6 bar
- Suction hose with foot valve and filter
- Stainless steel hand truck with PE console/mounting plate (white)
- Water filter (300 microns [50 mesh])
- Pressure regulator 3/4" with pressure gauge
- Non-return valve 3/4" FT
- 25 m spraying hose
- Stainless steel spray lance
- Dimensions (approx. 60 x 56 x 130 cm, W x H x D)

3

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes.

Operating principle:

- When connected to the water mains, the doser uses the water pressure as its driving force,
- which causes it to draw concentrate in, dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Multi-purpose:

- Deep-cleaning/disinfection of surfaces
- Suitable for fertilisation and pest control
- Regulation of the pH of water
- Even lubrication, flocculation and many more applications possible

Scope of supply:

- DOSA^{Tec} Mobile-R, Stainless steel hand truck with PE console/mounting plate, water filter, pressure regulator with pressure gauge, 3/4" FT check valve, spray attachment, stainless steel spray lance and proportional doser.

Ordering data:

Model:	Dosing rate: %	Water flow rate: l/h	Hose connection: mm	Housing:	Item No:
Mobile-R-RE2	0.2 – 2.0	10 – 3,000	8 x 12	PVDF	3988300
Mobile-R-RE5	0.5 – 5.0	10 – 3,000	12 x 16	PVDF	3988305
More proportional dosers available on request					

Subject to technical modifications and printing errors. Images may vary slightly from actual product.

1.6.3.

DOSA^{Tec} Mobile-W mobile disinfection and dosing system

Station version: Mobile, compact high-performance disinfection and dosing system for volumetric and mechanical proportional dosing. *No power connection required! Any standard water supply can be used.* Ideal for surface disinfection, surface cleaning, fertilisation, washing systems, etc.

Product description:

- Proportional dosers D3RE2 VF PVDF or D3RE5 VF PVDF
- Dosing range: 0.2–2 % or 0.5–5 %
- Water flow rate: 10–3,000 l/h
- Pressure range: 0.3–6 bar
- Suction hose with foot valve and filter
- Designed as a mobile station (see left)
- Water filter (300 microns [50 mesh])
- Pressure regulator 3/4" with pressure gauge
- Non-return valve 3/4" FT
- 25 m spraying hose
- Stainless steel spray lance
- Dimensions (approx. 77* x 180 x 60 cm, W x H x D, *incl. hose holder, removable)

Multi-purpose:

- Deep-cleaning/disinfection of surfaces
- Suitable for fertilisation and pest control
- Regulation of the pH of water
- Even lubrication, flocculation and many more applications possible

Areas of application:

- Disinfection, cleaning, hygiene, odour neutralisation, environmental industry, water treatment, food industry, horticulture, pest control, fertilisation, pH/TH regulation, flocculation, car washes, metal processing, lubrication, oil, printing industry, car washes.

Operating principle:

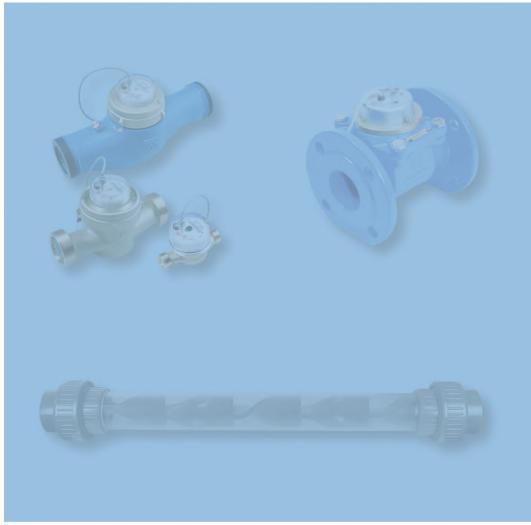

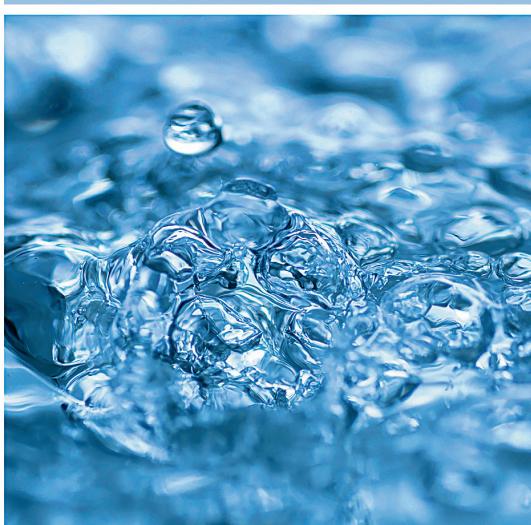

- When connected to the water mains, the doser uses the water pressure as its driving force,
- which causes it to draw concentrate in, dose it at the required concentration and mix it with the drive water. The stock solution made in this way flows through the doser. The amount of product dosed is proportional to the water flow rate, even if there are fluctuations in the flow rate or water pressure.

Scope of supply:

- DOSA^{Tec} Mobile-W, mobile station, water filter, pressure regulator with pressure gauge, 3/4" FT check valve, spray attachment, stainless steel spray lance and proportional doser.

Ordering data:

3. Dosing technology

1.7. Accessories for Metring pumps

1.7.1.

DOSA Tec Injection valve IVN

Solenoid diaphragm dosing pump for exact dosing of liquid media.

Product description:

- Injection valve consisting of:
 - Body made of PVDF or PP
(Union nut, clamping ring and hose connection)
- Ceramic valve ball
- Valve spring made of Hastelloy® C 276
- O-rings/seals made of Viton® or EPDM
- Opening pressure 0.3 bar,
(other pressures available on request)

3

Areas of application:

- Dosing medium is fed into a system under pressure through the injection valve.

Scope of supply:

- DOSA Tec IVN injection valve with the above parts

Ordering data:

1.7.2.

DOSA Tec Injection lance LINI

Injection lances for feeding dosing media into pressurised systems.

3

Product description:

- Variable insertion length, max. 150 mm
- maximum dosage approx. 20 l/h
- optionally available with or without a shut-off ball valve made of PVC or PVDF
- Material for union nut, clamping ring, hose connection and injection lance PVDF or PP
 - PVDF 25 °C/16 bar, 140 °C/2 bar
 - PP 25 °C/16 bar, 60 °C/3 bar
- Ceramic valve ball
- Valve spring made of Hastelloy® C 276
- O-rings/seals made of Viton® or EPDM
- Threaded connection 1/2" (male thread)
- Total length: 290.9 mm
- Immersion lengths:
 - without shut-off ball valve: max. 150 mm
 - with shut-off ball valve: max. 90 mm

Areas of application:

- Injection lances are fittings which are used for feeding dosing media into systems under pressure.
- The construction method enables maintenance and cleaning of the lance to be carried out even under pressure.

Scope of supply:

- DOSA Tec LINI injection lance with the above components and your selection criteria

Ordering data:

Type: (Please specify the hose connection when ordering, e.g. 4 x 6 mm)	Connection: inches (male thread)	Hose connection: mm	Corpus:	Seals:	Item number:

1.7.3.

DOSA Tec Foot valve FV Axial optionally available with a level switch

Foot valve with axially mounted level switch.

3

Product description:

- Body made of PVDF or PP
- Union nut, clamping ring and hose connection made of PVDF
- Ceramic valve ball
- O-rings/seals made of Viton® or EPDM
- Strainer and weight
- Axially mounted level switch can be operated as a:
 - normally open (N.O.)
 - or normally closed contact (N.C.)

Areas of application:

- As a non-return valve with normally open or normally closed contact, optionally available with a level switch.

Scope of supply:

- DOSA Tec FV Axial foot valve, 2 m connection cable with BNC plug

Ordering data:

Type: (Viton®, EPDM = seals)	Hose connection: mm	Valve size: inches	Level switch as a:	Body:	Item number:

1.7.4.

DOSA Tec Suction lance SL 4

Suction lance with lateral hose connection, volumetric delivery: up to 20 l/h.

Product description:

- Corpus: PVC
- O-rings/seals made of Viton® or EPDM
- Volumetric delivery: up to 20 l/h
- Hose connection: lateral
- With one or two outlets
- 1 ½" connection for recirculation/venting (4 x 6 mm)
- Immersion depth adjustable
- Level switch with connection cable (2 m) and BNC plug, with 2 cores as an option (please indicate when ordering if a cable without a plug is required)
- Second level switch (standard spacing 10 cm, other spacings possible on request)
- Hose connection: 4 x 6 mm, 4 x 8 mm
- Distance between switching contact and foot: 45 mm

3

Areas of application:

- Installation in a dosing tank with screw lid or in the screw lid for an original delivery container.

Scope of supply:

- DOSA Tec SL 4 suction lance, 2 m connection cable with BNC plug (standard) or, optionally, without a plug (2-core, please indicate when ordering)

DOSA Tec Suction lance SL 5

Suction lance with lateral hose connection, volumetric delivery: 20 l/h and above.

Product description:

- Corpus: PVC
- O-Rings made of Viton® or EPDM
- Volumetric delivery: 20 l/h and above
- Hose connection: lateral
- With one or two outlets
- 1 ½" connection for recirculation/venting (4 x 6 mm)
- Immersion depth adjustable
- Level switch with connection cable (2 m) and BNC plug, with 2 cores as an option
(please indicate when ordering if a cable without a plug is required)
- Hose connection: 4 x 6, 4 x 8, 6 x 8, 8 x 10, 8 x 12, 12 x 18, 13 x 16 mm
- Distance between switching contact and foot: 45 mm

3

Areas of application:

- Installation in a dosing tank with screw lid or in the screw lid for an original delivery container.

Scope of supply:

- **DOSA Tec SL 5** suction lance, 2 m connection cable with BNC plug (standard) or optionally, without a plug (2-core, please indicate when ordering).

DOSA Tec Multifunction valve MF

Pressure sustaining valve, pressure relief valve and air bleed valve in a single assembly.

Product description:

- Body: PVDF (polyvinylidene fluoride) or PP (polypropylene)
- O-rings made of Viton® or EPDM
- Pressure control from 1 to 5 bar, if used as a pressure sustaining valve
- Pressure control from 1 to 18 bar, if used as a pressure relief valve or from 1 to 10 bar (low)
- The multifunction valve is designed for pump capacities of up to 60 l/h
- Connection: $\frac{3}{8}$ ", $\frac{1}{2}$ "
- Can be mounted directly to the dosing pump or to the wall

3

Areas of application:

- Pressure sustaining valve:
 - Dosing in open containers or below the level of the dosing pump (siphon principle). A rotary knob allows a counterpressure of 1 to 5 bar to be set.
- Pressure relief valve:
 - Dosing in pressurised systems where the pressure might be higher than the permitted operating pressure of the dosing pump. A rotary knob allows a counterpressure of 1 to 18 bar to be set. If the preset pressure limit is exceeded, the pressure relief valve opens and conveys the dosing media via a lateral hose connection back into the dosing tank.
- Air bleed valve to vent the dosing head manually:
 - Turn the rotary knob for pressure relief adjustment to open the valve for venting purposes.

Scope of supply:

- DOSA Tec MF multifunction valve, air bleed hose (PP)
- Please indicate the port size
 - Port size: $\frac{3}{8}$ ", $\frac{1}{2}$ "
 - Hose connection: (4/6, 4/8, 6/8, 8/10, 8/12, 12/18) mm

DOSA Tec Multifunction valve MF-I

Pressure sustaining valve, pressure relief valve and air bleed valve in a single assembly.

Product description:

- Body/hydraulic components: PVDF (polyvinylidene fluoride)
- O-rings made of Viton® or EPDM
- Pressure control from 0 to 5 bar, if used as a pressure sustaining valve.
- Pressure control from 1 to 18 bar, if used as a pressure relief valve
- The multifunction valve is designed for pump capacities of up to 60 l/h
- Screw Connection: ½W
- Connection air bleed hose: 4 x 6 mm
- Can be mounted directly to the dosing pump

Areas of application:

- Pressure sustaining valve:
 - Dosing in open containers or below the level of the dosing pump (siphon principle). A rotary knob allows a counterpressure of 0 to 5 bar to be set.
- Pressure relief valve:
 - Dosing in pressurised systems where the pressure might be higher than the permitted operating pressure of the dosing pump. A rotary knob allows a counterpressure of 1 to 18 bar to be set. If the preset pressure limit is exceeded, the pressure relief valve opens and conveys the dosing media via a lateral hose connection back into the dosing tank.
- Air bleed valve to vent the dosing head manually:
 - Turn the rotary knob for pressure relief adjustment to open the valve for venting purposes.

Scope of supply:

- DOSA Tec MF-I multifunction valve, air bleed hose (PP)

1.7.8.

DOSA Tec Flow sensor DFS

Sensor to control the dosing capacity of solenoid-driven diaphragm dosing pumps.

Product description:

- Body: PVDF (polyvinylidene fluoride) or PP (polypropylene)
- O-rings/saels made of Viton® or EPDM
- Models:
 - Screw connection with female thread for direct connection to the dosing head
 - Hose connection and wall mounting
- Fine tuning
- Max. temperature: 45 °C
- Connection: ½" (standard), ¾" (please indicate expressly)
- Hose connection: (4 x 6, 4 x 8, 6 x 8, 8 x 10, 8 x 12, 13 x 16, 12 x 18) mm (indicate port size when ordering)

Areas of application:

- Controlling the dosing capacity of solenoid-driven diaphragm metering pumps.
- The flow sensor is either screwed directly to the pressure valve of the solenoid diaphragm dosing pump or, by means of a supplementary hose connection, mounted into the dosing line of the dosing system.

Working principle:

- Every dosing pulse causes an integrated solenoid body to bounce up and actuate an inductive proximity switch. The proximity switch records each dosing pulse and transmits it, either to the connected dosing pump or to another device that can process the signal, via a signal cable.
- Should a pulse (or several pulses in a row) be missing, e.g. due to air/gas in the dosing line, it is possible to stop the dosing pump or to generate an error message. Using an adjusting screw it is possible to adjust the flow rate and the sensor sensitivity to suit the system requirements.

Scope of supply:

- DOSA Tec DFS Flow sensor, 1.5 m signal cable with BNC plug and LED
- Please indicate the required hose connection when ordering, if required (e.g. 6 x 8 mm)
- Please indicate special connection ports (¾") when ordering

1.7.9.

DOSA Tec Pulsation damper SOIM

Pulsation dampers used for compensating pressure surges and pressure resistances in longer dosing lines.

Product description:

- Body: PVC, PVDF or stainless steel
- O-rings/seals made of Viton® or EPDM
- Temperature/pressure of SOIM 1 made of PVC: 45 °C/5 bar
- Temperature/pressure of SOIM 3 made of PVDF: 45 °C/10 bar
- Temperature/pressure of SOIM SS made of stainless steel: 130 °C/10 bar
- Hose connection:
 - for $\frac{3}{8}$ "': (4 x 6, 4 x 8, 6 x 8) mm, please indicate when ordering
 - for $\frac{1}{2}$ "': (6 x 8, 8 x 10, 8 x 12, 12 x 18) mm, please indicate when ordering

Areas of application:

- Pulsation dampers are used for compensating pressure surges and pressure resistances which can occur in longer dosing lines.

Working principle:

- An air/gas bubble forms in the upper part of the pressure vessel. The pressure surges caused by the oscillating membrane movement are attenuated by the gas bubble, so that the dosing flow becomes steady.

The following formula can be used to determine the correct size of the pulsation damper:

- Volume (l) = $\frac{\text{pressure (bar)} \times \text{volume to be dosed (l)}}{500}$
- The volume of the pulsation damper has to be equal to or higher than volume (l).

Scope of supply:

- DOSA Tec SOIM pulsation damper stainless steel mounting bracket (please indicate the connection and the hose connection when ordering, e.g. $\frac{3}{8}$ " with 6 x 8 mm)

DOSA Tec Dosing tank DB A

Dosing tanks made of UV-stabilised polyethylene (PE), with handhole and screw lid.

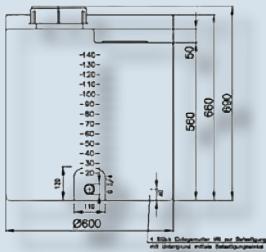

Product description:

- Moulded litre scale
- Moulded ¾" threaded outlet socket (not perforated) with sealing plug and seal (EPDM)
- Four M6 moulded insert nuts (except for DB-A 35) for mounting fastening bracket
- Colour: Natural (standard), black, blue, red (optional)

3

Areas of application:

- Storage of liquid dosing chemicals.

DOSA Tec Dosing tank DB E

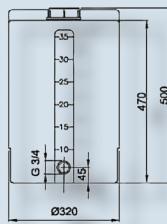

Dosing tanks made of UV-stabilised polyethylene (PE), with handhole and screw lid.

Product description:

- Moulded litre scale
- Moulded ¾" threaded outlet socket (not perforated) with sealing plug and seal (EPDM)
- 4 moulded insert nuts for mounting holding brackets
- Colour: Natural (standard), black, blue, red (optional)

3

Areas of application:

- Storage of liquid dosing chemicals.

Scope of supply:

- DOSA Tec DB E dosing tank with screw lid

DOSA Tec Safety bunds O

Safety bunds made of UV stabilised polyethylene (PE).

Product description:

- Housing of dosing tank models DB-A, DB-C, DB-E
- Made of UV stabilised polyethylene

Areas of application:

- Housing of dosing tanks.
- Drip collection.

Scope of supply:

- DOSA Tec O Safety bunds
- Colour: natural (standard), black (+15 % surcharge)

DOSA Tec Accessories for dosing tanks DB

Accessories for efficient use of DB dosing tanks.

Product description:

- Practical accessories for DB dosing tanks.

Areas of application:

- Stirring and mixing of liquid media.

Scope of supply:

- Depending on your order:
 - Manual stamping mixer
 - Manual agitator
 - Mounting bracket

Further accessories:

- Threaded couplers, threaded nipples, flanges, flange bushings with loose flanges
- Further accessories on request

DOSA Tec Standard agitator Mix

Agitators for mixing of liquids in dosing tanks up to a maximum viscosity of 500 cPs.

Product description:

- Balanced agitator shaft made of stainless steel (AISI 316L), with PVC sheathing, optionally PVDF
- Detachable agitator unit
- For zero-pressure operation
- Not suitable for outgassing media
- Max. temperature of the medium: 55 °C
- Protection category: IP 55
- Power supply:
 - 230/276 V, 50/60 Hz, 1-phase (Mon)
 - 400/480 V, 50/60 Hz, 3-phase (Tri)

Areas of application:

- Mixing of liquid media.

Scope of supply:

- DOSA Tec Mix standard agitator with shaft and screw

Ordering data:

1.8. Water meter

1.8.1.

DOSA Tec Impeller flow meter CT, CA

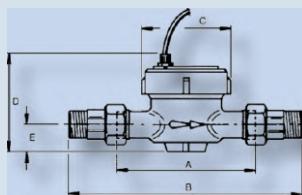

Flow meters made of high-grade brass die cast with plastic inner parts.

3

Product description:

- Impeller flow meter
- Models:
 - Wet-dial water meters (CT)
 - Dry-dial water meters (CA) with dry metering chamber
 - Cold water up to 30 °C
 - Warm water up to 90 °C
- For demineralised water and condensate
- Min. reading 0.1 l (DN 50: 0.5)
- Max. reading 105 m3
- Reed contact output, max. contact load 24 V, 100 mA
- Max. operating pressure: 16 bar
- Pressure drop at Qmax: 1 bar
- Pulse interval: see table
- Insulation voltage: 4000 V AC

Areas of application:

- Precise registration of flow rates
- Pulse to controller (for dosing control, e.g. dosing pumps)

Scope of supply:

- DOSA Tec CT, CA Impeller flow meter with screw connections and seals, standard 2 m connection cable
- Optional lengths 5, 10 and > 10 m with:
 - BNC plug (standard)
 - without plug
- Option: Calibration certificate (available on request)
- When ordering: indicate pulse sequence and plug type

DOSA Tec Impeller flow meter KWKT/KWHT

Flow meters made of high-grade brass die cast with plastic inner parts.

Product description:

- Impeller flow meter with pulse drive
- Models:
 - Dry-dial water meter with dry metering chamber
 - Cold water up to 30 °C
 - Warm water up to 90 °C
 - Teflon (PTFE)-coated roller register for aggressive media
- Design: KWKT, PTFE-coated
- Min. reading 0.1 l (DN 50: 0.5)
- Max. reading 105 m³
- Reed contact output, max. contact load 24 V, 200 mA
- Max. operating pressure: 16 bar
- Pulse intervals: see below

Areas of application:

- Precise registration of flow rates
- Pulse to controller (for dosing control)

Scope of supply:

- DOSA Tec KWKT/KWHT impeller flow meter with screw connections, Standard 2 m connection cable (except with Teflon), BNC plug (standard), without plug
- Please specify litres/pulse sequence and plug type when ordering

*Nominal flow rate Qn: = 1/2 max. flow rate Qmax (in compliance with calibration requirements)

1.8.3.

DOSA Tec Woltmann contact water meter WW

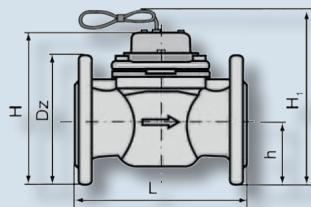

Die cast iron, lacquer coated inside and outside, with plastic inner parts

3

Product description:

- Woltmann contact water meter
- Dry-dial water meter with dry metering chamber
- Operating temperature range:
 - Cold water up to 30 °C
 - Warm water up to 130 °C
- Wide measuring range
- Removable measuring insert
- Simple readout
- Magnetic coupling
- Low minimum start-up flow rate
- Materials suitable for drinking water
- Complies with ISO 4064, BS 5728, ISO/DIS 10385
- Max. operating pressure: 16 bar

Areas of application:

- Registration of flow rates
- Pulse to controller (for dosing control)

Scope of supply:

- DOSA Tec WW Woltmann contact water meter, standard 2 m connection cable, BNC plug (standard), without plug
- Please specify litres/pulse sequence and plug type when ordering

3. Dosing technology

1.9. Static line mixer

1.9.1.

DOSA Tec Static line mixer SRMK made of plastic

Line mixer for media free of solid particles.

Product description:

- Mixing insert consisting of a slit helical structure
- The system works without any moving parts
- Operating temperatures:
 - PVC up to nominal pressure PN 16, max. 40 °C
 - PP and PE up to nominal pressure PN 10, max. 60 °C

3

Areas of application:

- Intense mixing of two liquid media (without solids) while flowing.

Scope of supply:

- DOSA Tec SRMK static line mixer, made of plastic

Ordering data:

1.9.2.

DOSA Tec Static line mixer SRME made of stainless steel

Line mixer for media free of solid particles.

Product description:

- Mixing insert consisting of a slit helical structure
- The system works without any moving parts
- Operating temperatures:
 - Stainless steel (1.4301) up to nominal pressure PN 10, at a media Temperature of 20 °C (68 °F)
- Stainless steel (1.4751) on request

3

Areas of application:

- Intense mixing of two liquid media (without solids) while flowing.

Scope of supply:

- DOSA Tec SRME static line mixer, made of stainless steel

Ordering data:

1.9.3.

DOSA Tec Static line mixer FSHM

Line mixer for media containing solids.

Product description:

- Mixing insert consisting of baffle plates
- Material: PE, stainless steel
- The system works without any moving parts
- Operating temperatures: max. 60 °C
- max. operating pressure: up to nominal pressure PN 10

3

Areas of application:

- Intense mixing of two liquid media containing solids, while flowing.

Scope of supply:

- DOSA Tec FSHM static line mixer
