

DOSASens Flow cell DAS

PVC Flow cell for holding electrodes with PG 13.5

Product description:

- Made of high-grade PVC
- Operating temperature range: 1 to 50 °C
- Max. operating pressure: 6 bar
- The **DAS** flow cells have screw connections and PVC glue sockets, enabling them to be mounted in the full stream
- Connection: glue socket
- Electrode holding thread PG 13.5

Areas of application:

- Holding of electrodes.
- e.g. pH, redox (ORP), oxygen, temperature

Scope of supply:

- **DOSAFlow DAS** flow cell

Ordering data:

Type:	Equipment:	Connections:	Item number:
DAS 1KC DN 25, D 32	1 electrode holder	EPDM	3488020
DAS 1KC DN 25, D 32		Viton	3488025
